Document on kosher products (Teudat kosher)

Company: "Imperovo Foods"

Legal address: st. Akademik Zabolotny, building 150, app. 17, Kyiv, Ukraine 03680

Address of production facilities: st. Promyslova, 29, Ivano-Frankivsk, Ukraine 76018

Product types: whole egg powder, egg yolk powder, egg white powder, pasteurized liquid egg melange, liquid pasteurized egg albumen, liquid pasteurized egg yolk.

I, the undersigned Rabbi Shlomo Wilhelm, Chief Rabbi of Zhytomyr city and Western Ukraine, hereby do confirm that **eggs products made by "Imperovo Foods"**, in particular whole egg powder, egg yolk powder, egg white powder, liquid pasteurized whole egg, liquid pasteurized egg albumen, liquid pasteurized egg yolk, **are recognized as kosher.**

I have visited the Company's factory several times, the last time on February 18, 2024, personally saw the entire production cycle, which does not contradict the laws of kashrut.

Egg products are produced only from the company's own raw materials: eggs laid on its own farms and poultry farms. Laying hens are housed separately from roosters, receive the necessary vitamins and antiviral drugs by adding them to water, and not by injection. "Moba" (Netherlands) egg sorting machines are installed in the warehouses, which are equipped with a "blood detector" that allows to check the egg for the presence of blood inside and reject such an egg for further disposal.

The eggs at the enterprise are never left open overnight, immediately after opening they enter the production process to the tank.

In accordance with the foregoing, I certify that the entire process of production of egg products is carried out in accordance with the rules of kashrut, and **the egg products produced by the "Imperovo Foods" are kosher.**

This document is valid until February 18, 2025.

Shlomo WILHELM,
Chief Rabbi of Zhytomyr
and Western Ukraine

February 18, 2024.
